**KIRKLAND, Wash. (July 2022)** – It's time for the premier event for public safety communications officials, APCO 2022! See the latest in frontline and comm center telecommunications and public safety communications equipment from August 7-10, in Anaheim, California, at the Anaheim Convention Center. You can find Icom at booth 531, where we will showcase various interoperable public safety communications solutions, including P25, LTE, IDAS™, and satellite radios, with our popular CONNECT RoIP gateway – the VE-PG4.

Want enhanced coverage? Icom's **IC-SAT100** satellite radios easily connect to P25 infrastructure with our cost-effective **VE-PG4**. Quickly communicate with statewide public safety systems, critical infrastructure agencies, and last-mile disaster relief teams anywhere in the world with the push of a PTT button. The IC-SAT100 provides global communications to users in remote locations using Iridium's constellation of 66 LEO (Low Earth Orbit) satellites.

Icom's CONNECT RoIP gateway, VE-PG4, is a comprehensive solution for all your interoperability needs. This gateway connects legacy analog and modern digital radio systems to our unique analog, IDAS™, IP, LTE, P25, and satellite radios giving your team the coverage they need. This comprehensive and flexible solution creates a seamless, multi-protocol communication ecosystem for commercial and professional use. Connectivity options are endless with the VE-PG4 gateway at the center of your communications system. You can rely on Icom to help you stay connected when it counts.

Icom is known worldwide for manufacturing the most innovative land mobile radios. In a world where technology is ever-evolving, Icom continues to stand the test of time with leading-edge forward thinking. Radio users worldwide choose Icom products for their legendary durability, quality, dependability, and ease of use.
